Elgin Board of Trade Will in the Future Determine **Butter Price**

Suit was Recently Filed by Federal Government for Dissolution of the Board

STANDARD QUALITY LOWERED

ELGIN, ILL. DEC. 16 .- In the most exciting annual meeting in its history, the Elgin Board of Trade to day abolished the practice of 17 ears standing of arbitrarily fixing the price of butter by its quotation committee and adopted a plan to have the board itself determine the price of the product in the future based on actual sales.

The action came as a result of the suit recently filed by the federal government for the dissolution of the board. In its bill the government mentioned the quotation committee as one of the means used by the alleged "butter trust" in conamendment of its rules, was the culmination of a bitter fight for control year between the commission or selling interests and the producers.

Led by James P. Younger of Chiago, the commission men elected a poard of five directors abolished the juotation committee and made a number of other important changes n the organizations business me-Defeated at every turn the ter and Coal is Piled Nearly Fifty of Joseph Newman left the hall beproducers faction under the leaders fore the re-organization program had been put through and threatened to organize a rival board in the lowering of the quality standard of butter to score 92 points in summer months and 90 points in winter.

The present requirement is 93 points in the test throughout year. Another change requires that all butter must be sold the week in are to be made from either Elgin or Chicago instead of from the shipping

Several department of justice agents attended the meeting and took notes of the proceedings. James P. Younger said:

"This fight was begun 17 years ago by myself and a few others and we have kept it up ever since. I always have been opposed to having the prices fixed by the quotations committee it should be determined by the actual sales and the law of supply and demand. If think this action meets the objections made by the government made in its suit for dissolution of the board and will result in lowering the cost of butter to the consumer."

Joseph Newman said:

"The producers are talking of organizing a separate board of their own as a result of to day's action. The change in the rules will not bene fit the public in anyway so far as I can see. It deals a blow to the producer of butter and gives the fixing

of prices to the commission men. At the beginning of the meeting President C. H. Potter remarked that would be impossible to read the minutes of the last annual session for the reason that the government had seized the books of the organization and had failed to return them. The producers faction vigorously

opposed the action of the commision men at every step in the program. They objected to the voting of prices, on motions to suspend the rules, declared the proceedings illegal and made numerous attempts to force an adjournment but President Potter ruled against them in every instance.

Despite the shouts of producers the commission men suspended the rules by a vote of 162 to 101 and proceeded to amend the rules in accordance with the plan of re-organiza-Before a roll call was had on the changes in the rules Joseph Newman rose and after declaring that the proceedings were illegal left the meeting followed by a score of supporters.

PACKEY PROVES TOO FAST FOR MURPHY

Chicago Boy Wins Decisive Victory At Kenosha.

BcFarland Finishes With No Marks of the Encountetr While Murphy Loses Two Teeth and is Soory

* Kenosha, Wis., Dec. 16.—Packey McFarland, of Chicago earned a decisive victory over Eddie Murphy of Boston in their ten round fight here to night. Murphy lost two teeth and was knocked down in the last round, his right eye cut open and he finished the fight a sorry spec-tacle, although apparently still strong and willing.

Packey justified the claims of his admirers by never being in danger. He rained blows on Murphy almost at will but the knockout punch never was in evidence, and though Murphy often was in distress the rugged Boston light-weight was ready always to

DR. PRICE'S Gream Baking Powder

Has a dietetic value greatly beyond the conception of anyone who has not used it. It will make your food of a delicious taste, a moist and keeping quality, and a digestibility not to be obtained from other baking powders or leavening agents.

But more important than all else, Dr. Price's Baking Powder, being a pure, cream of tartar powder, carries only healthful qualities to the food—no alum, no lime phosphate.

It is noticeable that the advertisements of the low priced (10c., 15c., 20c., 25c. per pound) baking powders give no information as to ingredients. The fact that such powders are made from alum is stubbornly concealed, their proprietors going so far as to issue prohibitory contracts against exposure in the newspapers.

Is this because the alum people know that pub. licity would stop their business? Of course no prudent housekeeper would use an article of food in which she learned there had been concealed an unhealthful ingredient.

Tee Much For Webster. In the somewhat famous case of

Mrs. Bodgen's will, which was tried in the supreme court many years ago. Daniel Webster appeared as counselor for the appellant Mrs. Greenough, wife of the Rev. William Greenough. was a very self possessed witness. Notwithstanding Mr. Webster's repeated efforts to disconcert her, she pursued the even tenor of her way until Webster, becoming quite fearful of the result, arose, apparently in great agitation, and, drawing out his large snuffbox, thrust his timmb and finger. to the very bottom and, carrying a deep pinch to both nostrils, drew it up with gusto, and then, extracting from his pocket a very large handkerchief. he blew his nose with a report that rang distinct and loud through the

He then asked, "Mrs. Greenough, was Mrs, Bodgen a neat woman?" "I cannot give you full information as to that, sir. She bad one very dirty trick," replied the witness.

Flags We Have Known.

The first dag to float over American soil was the royal standard of Isabella, emblazoued with the arms of Cas tile and Leon. A white fiag with green cross was its companion. Some years after Columbus landed at San Salvador the Cabots planted the bannel of England and of St. Mark of Venice on the eastern shore of North America. In the centuries that have intervened since a variety of national flags have waved where now only the stars and stripes is the accepted emblem. Over Texas have floated the French, Spanish, English, American and Confederate; in Louisiana the Illies of France. the Spanish flag, the tricolor, the Amer ican and Confederate flags; in Califor nia the Spanish, Mexican, Russian and American.

Moors Consider Us Dirty.

A habit of our own which we consider far more cleanty than eating with our fingers is looked upon by the Moors as filthy-that is, washing our hands or face in a basin and, still more, taking a bath where the water we are washing with must necessarily become, and eventually we step forth as cleansed from water which is no longer clean. A Moor to wash his hands has the water poured from a vessel over them and never by any chance dips them into the dirty water. The same way in their baths. The water is thrown over their bodies out of bright brass bowls and flows away through holes in the marble or tile

No Man is Stronger Than His Stomach

A strong man is strong all ever. No man can be strong who is suffering frem weak stomach with its consequent indigestion, or from some other disease of the stomach and its associate! organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," en he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, in languid, nervous, irritable and despond

A. W. Becker. THE UMBRELLA.

ts Antiquity and Its Introduction Into English Writings.

Umbrellas were first used in a country where the intensity of the light and heat rendered a shade almost it. dispensable, and discoveries at Nineveh show that they were carried before the king in time of peace and sometimes in war.

In 1608 Thomas Coryat traveled in Italy and wrote, "The people do carry umbrellas-that is, things that minister shadow unto them for shelter against the scorching of the sun.'

In Beaumont and Fletcher's play, 1640, "Rule a Wife and Have a Wife," are these words, which prove that they were then known in England: "Are you at ease? Now is your heart at ease. Now you have got a shadow, an umbrella, to keep the world's scorching opinion from your fair credit."

In 1786 Jonas Hanway died in a house in Red Lion square. He was the first man who ventured to walk the streets of London with an um brella over his head.

Dr. Shabbear was committed in the court of king's bench for a libel and was sentenced to stand in the pillory, but a servant in livery was hired to hold an umbrella over his head to keep off the rain. Cowper in the "Task," 1784, thus de-

A SCIENTIFIC HOAX.

The Steel Eating Worm and the Origin of the Mythical Insect.

A letter published in the New York Engineering News from Mr. E. Gybbon Spilsbury gives the origin of the myth regarding the "steel eating worm." About 1866, he says, employees of various iron, seel and chemical works of the district surrounding Haspe, in Germany, used to meet at a hotel in order to discuss subjects of general interest, with the result that a society known as the "Ulk," which in English signifies "fun," was formed.

The steel eating worm was created at one of the meetings and an editor from one of the neighboring towns was made the subject of the joke. The "insect" was manufactured from a piece of gutta percha tube and was exhibited in a bottle half full of scale. The worm was filled with dilute by drochloric acid and when properly disthe scale, served to prove that the corresion was due to a secretion of the

An Incident of Old Japan.

On March 24, 1868, an English minister was for the first time received with ceremony by the mikado, and the story of that reception illustrates remarkably the transformation of Japan under Mutsubito. It had been fixed for the previous day, but on his way to the palace Sir Harry Parkes was fiercely attacked by two Japanese swordsmen. So sudden and furious was the assault that nine of the eleven men of the escort were wounded. The nose of Mr. Satow's pony and Sir Harry's belt were cut, but Sir Harry himself was uninjured and pursued one of the assailants. Mr. Freeman-Mitford "found him at the angle of the street with the headless body of one of our enemies at his feet." The other, a samurai, was degraded and executed; the reception came off next day, and the mikado is sued a decree forbidding all assaults upon foreigners.

Creeping Salt.

Here is something in the course of natural phenomena that will interest and instruct the little folk if they look into it curiously: Into a tumbler half full of water dissolve just as much common table salt as can be held in solution. Let it stand for a few days and see how the salt creeps out of the water, up the inside of the glass and down the outside just like a thing of life trying to escape from its environment. And when all the sait is ap parently out of prison the water re mains as salty as before! It is a pretty demonstration.

APPEARING OLD

Acts as a Bar to Profitable Employ. ment.

You cannot afford to grow old. In these days of strenuous competition it is necessary to maintain, as long as possible ones youthful appearance. It is impossible to de this without retaining a luxurious growth of hair. The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness. Newbro's Herpicide is the only known flestroyer of this pest, and it is as effective as it is delightful to use

Herpicide makes an elegant hair dressng as well as Dandruff cure. Accept no substitute-there is none. Sold by leading druggists. Send 10c. in tamps for sample to The Herpicide Co.

ANNIVERSARY ANNOUNCEMENT EXTRAORDINARY

Just four years ago the Illinois Stock Exchange opened in Jacksonville. The first location on West State street can be remembered by many, and troublesome time were those for the Exchange. Newspapers would not take our advertisements; everyone looked on us as itinerant merchants who would stay about two weeks and then move away. Well, time has proven that we did stay and from that humble beginning on West State street we have grown to be one of Jacksonville's largest outfitters.

And now as a fitting celebration of our fourth anniversary we propose to hold one of the GREATEST CUT PRICE BARGAIN CARNIVALS that Jacksonville has ever known. Just recently we have purchased the Brown Clothes Shop, 317 Main street, Peoria, and we will offer thousands of dollars' worth of fine clothing from this stock, combined with a manufacturer's stock of ready-to-wear apparel for women and our own regular stocks at prices that mean 40c, 50c and 60c on the dollar.

This Anniversary Sale coming at this time, when warm clothes will soon be needed and just before the Christmas holidays, makes it a bargain event that will be remembered for years to come. Anniversary sale will open

Thursday, Dec. 19

at 9 a. m.

Distinguished Citizens Gather Recently at Hotel Astor in Recognition of New York District Attorney's Achievements in Rosenthal

At a banquet given at the Hotel Astor in New York city recently in honor of (District Attorney Charles Whitman, in recognition of his achievements in the Rosenthal case, at which one thousand of New York's distinguished citizens were present, Frederick C. Tanner, a former resident of this city, acted as toastmas-

The banquet was given by Mr. Whitman's friends in New York county under the auspices of the Republicans of the 25th assembly district, in which the attorney resides. In speaking of the testimonial the New York American said:

The gathering was in no sense political. Republicans rubbed elbows with Democrats, and at every one of the one hundred and one tables were seated men of distinction-judges of the supreme court, general sessions, special sessions, magistrates courts, senators, congressmen, capitalists and lawyers."

At the guest table were seated Charles S. Whitman, Talcott Williams, Barton A. Hepburn, George Battle, William E. Borah and Frederick E. Tanner, and among the guests present were Elbert H. Gary, Alton B. Parker, E. R. L. Gould, Ogden L. Mills, William G. McAdoo Ralph Pulitzer, John D. Rockefeller r., Henry W. Taft, William Emlen Roosevelt, William A. Prendergast and Ezra P. Prentice.

The speakers were Talcott Williams, A. B. Hepburn, George Gordon keeps in touch with the worthy poor Battle, United States Senator William E. Borah of Idaho and Mr. unworthy. The superintendent can Whitman. Mr. Tanner's remarks taken from the New York American

They were somewhat surprised when they were admitted to the LaRue home and found they were too early with ding was not to take place until Monday night. However the company spent a jolly half hour and when they left they scattered rice all over the front walk and ornishoes and left such placards as "Not which I give below: yet but soon." These were not discovered Monday morning until after there had been many passersby.

An interested visitor was Harrison Ruehe, head instructor of the dairy department at Illinois uni-

Some paragraphs from General Manager rBeckon comprehensive report are as follows:

'Your manager feels that many do not realize the value of such a plant and takes this opportunity to invite not only stockhalders but the public in general to make frequent inspection. He is sure it A number of the friends of Miss will be good for us and he believes good for you.

that it emphasizes to us the value of the creamery to farming commundollars paid to farms but far beyond that is the incentive by making a Mrs. LaRue. The visitors brought ready market for his dairy products, to keep a herd of cows and thereby help to put back onto the farm by stock raising what cereals are so fast taking off.

"During the year the story which was circulated so frequently that a creamery could not be successful in this community because there were not enough cows has been completely refuted as it can be foreseen that with a little patience and work twice the volume of business can be done that was done last year, totals of
